

Comprehensive Skull Base Surgery (endoscopic & microsurgical approaches)

UNIVERSITÀ DEGLI STUDI DI NAPOLI
FEDERICO II

May 29, 2012
Napoli, ITALY

Featuring:

- *Lectures*
- *Live Surgical Demonstration*
- *Video Sessions*

Program Highlights:

- Anatomy
- Surgical Technique
- Instruments
- Reconstruction Techniques
- Complications
- Tips & Tricks
- Case Discussion

Course Directors:

Paolo Cappabianca
Luigi M. Cavallo

Guest Faculty:

Francesco Tomasello

Faculty

Francesco Biroli	Davide Locatelli
Luigi Califano	Pietro Mortini
Paolo Castelnuovo	Antonino Raco
Domenico D'Avella	Franco Servadei
Felice Esposito	Massimo Scerrati
Giorgio Frank	Domenico Solari
Giorgio Iannetti	Giustino Tomei

Course Description

This workshop is intended to give a comprehensive overview of skull-base surgery, describing the conventional microsurgical approaches and the recent extended endoscopic endonasal techniques. The course will include lectures, live surgery demonstration and video sessions. The faculty and the trainees will exchange experiences and questions during a one-day full immersion meeting.

Registration fee is €500.00. Twenty attendees will be enrolled.

Course will be held on-site at the Department of Neurosurgery of the Federico II University Hospital.

Under the auspices of:
WFNS, SINch, ISPS, UNINA, ANEMA

- 8.30 am Registration
- 8.45 am Welcome and introduction (*F. Servadei*)
- 9.00 am *Special lecture*: Evolution of skull base surgery (*F. Tomasello*)
- 9.30 am Endoscopic anatomy of the midline skull base as seen from the outside perspective (*D. Solari*)
- 9.50 am Endoscopic endonasal approaches to the ventral skull base. (*P. Cappabianca*)
- 10.10 am Transcranial approaches to the midline skull base (*D. D'Avella*)
- 10.30 am Endoscopic endonasal approaches for midline skull base meningiomas (*F. Esposito*)
- 10.50 am Transcranial approaches for midline skull base meningiomas (*P. Mortini*)
- 11.10 am **Coffee break**
- 11.30 am Endoscopic endonasal approach for craniopharyngiomas (*L.M. Cavallo*)
- 11.50 am Transcranial approaches for craniopharyngiomas (*M. Scerrati*)
- 12.10 am Endoscopic endonasal approach for clival and CVJ lesions (*G. Frank*)
- 12.30 pm Microsurgical approaches to clival and CVJ lesions (*A. Raco*)
- 12.50 pm *Discussion*
- 13.10 pm **Lunch**
- 13.50 pm From the transfacial to the endonasal route (*G. Iannetti*)
- 14.10 pm Sinunasal malignancies involving the skull base (*L. Califano*)
- 14.30 pm Endoscopic endonasal management of CSF leaks (*D. Locatelli*)
- 14.50 pm Complications of skull base surgery (*G. Tomei*)
- 15.10 pm Endoscopic endonasal skull base reconstruction techniques (*P. Castelnuovo*)
- 15.30 pm Microsurgical skull base reconstruction techniques (*F. Biroli*)
- 15.50 pm *Discussion*
- 16.10 pm **Coffee break**
- 16.30 pm *Artificial bone reconstruction practicals (Hands-on section)*
- 18.00 pm Adjourn
